

Acronis Backup Cloud

A Hybrid Cloud Backup Solution for Service Providers

Thousands of service providers — from small to large — succeed by selling an award-winning backup-as-a-service solution that supports more than 20 platforms. Acronis Backup Cloud protects any virtual, physical, and cloud environment, and lets you quickly realize incremental revenues with zero upfront costs and a pay-as-you-go business model.

PROTECT ANY WORKLOAD, BACKUP TO ANY STORAGE

You, as a service provider, need to support an increasing number of use cases to retain customers and expand your Total Addressable Market (TAM). Acronis Backup Cloud provides you with tools and options to protect any device in any location by backing up to any storage and recovering to any platform.

EXACT FIT FOR YOUR BUSINESS
